

LAKE HUMANE SOCIETY

2021

Annual Report

OUR MISSION

To protect animals and build connections
between pets and people through
advocacy and education.

A Message from Jamie

2021 defined the resilience of the Lake Humane Society.

Lake Humane Society rebounded from the constraints of a pandemic and held its unwavering commitment to the animals of Lake County. Our organization stayed true to its mission "... to protect animals and build connections between pets and people through advocacy and education."

We did this by providing loving homes to 1,352 animals and continuing to operate our critical programs. We provided supplemental food for pets through a partnership with Lake County Council on Aging and Auggie's Pet Food Pantry. We helped manage feral cat populations in Lake County through our Trap, Neuter, Return (TNR) Program, and provided preventative veterinary care to the public through our Low-Cost Wellness Clinic.

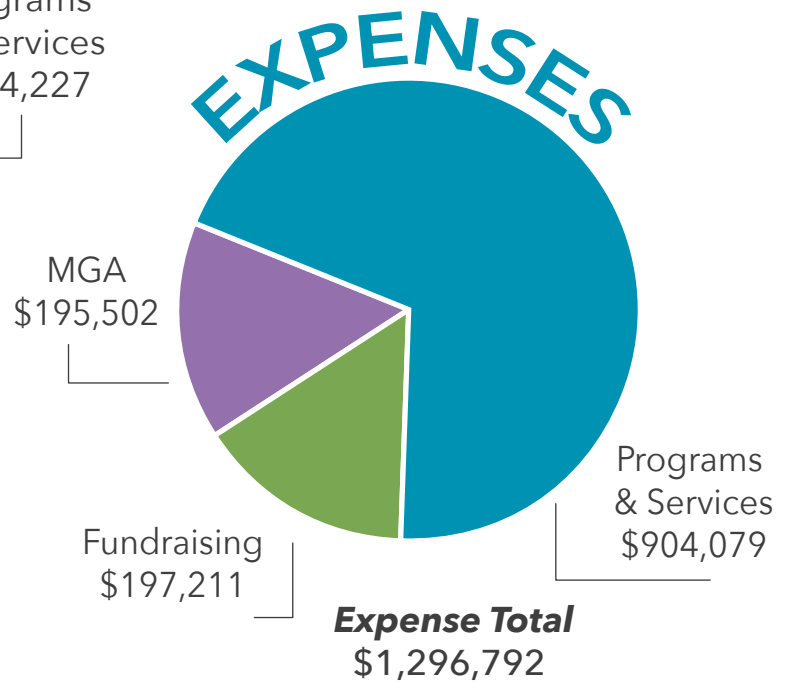

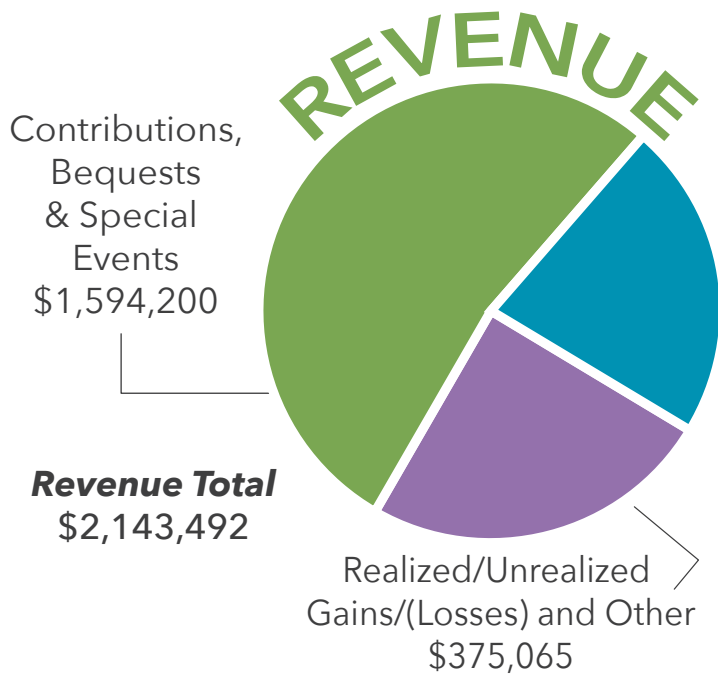

There was a noticeable increase in Humane Investigations. While one might be concerned with the increase in numbers, we believe the numbers are attributed to people recognizing and reporting suspected animal abuse – See something. Say something. In the past, these cases may have gone unreported. Our Humane Agents advocate for the animals in Lake County by providing education and protection to pets in need.

Our challenge in the foreseeable future is to be fiscally responsible in a period of rapidly rising inflation. As a non-profit, we understand our existence is due solely to our generous donors, who not only believe in our mission, but share the same vision. Lake Humane Society is committed to being prudent in our expenditures, but not at the cost of our animal friends and our programs designed to assist those in need in Lake County.

Jamie Tavano
Executive Director
